MISSION STATEMENT

To deliver the best product and service in the most cost efficient way possible to any client and to build healthy business relations in the industry that knows us by reputation.

VISION

Landscaping is an essential, value adding element of all construction projects and it must be catered for up-front as part of the design and planning phases.

VALUES / CORPORATE RESPONSIBILITY

TG Precise Engineering works with committed, productive employees, agents, and suppliers to create good services, loyal, satisfied customers and consumers.

All installations are done by well trained staff and managed by supervisors specifically trained to execute efficiently. Tg Precise Engineering recognises its obligations to act responsibly, ethically and with integrity in all its dealings, its staff, customers and the environment. Our business ethics contributes to our reputation for integrity as key to secure the loyalty of our customers and becoming the business partner of choice. It will always be our policy to conduct business in compliance with all applicable laws and regulations and in accordance with the highest ethical standards.

LANDSCAPING

WHAT WE DO

INSTANT LAWN

- We specialize in the installation of **new lawns**
- We establish lawns by means of **sod, sprig and seed**
- We do **domestic** and **commercial** installations
- We specialize in **sports field** construction
- We do **parks** and **golf courses**
- **Bush Tree** Cutting and felling

LANDSCAPING

From design...

to completion

WHAT WE DO

LANDSCAPING

Landscaping can change any atmosphere in any surrounding, combining aesthetics, nature and culture in a contemporary practice for YOUR enjoyment.

We create **beautiful gardens**, passionately and professionally. Adding value to your property.

We specialize in the **design and construction** of **parks, sports grounds, commercial landscaping, domestic landscaping, landscape design, installation and maintenance.**

Our unique approach enables us to offer our clients the most **flexible** garden design and landscaping service available.

We pride ourselves on our Professional **approach** and **high level** of service. Our attention to detail and close supervision ensures that every job undertaken is performed to the **highest standard** and we endeavour to exceed the expectations of our clients every step of the way.

HARD LANDSCAPING

WHAT WE DO

HARD LANDSCAPING

Hard landscaping describes the **physically hard construction materials which are used** to improve architectural features in a landscaped area.

Tg Precise Engineering is actively involved with projects tackling **pattern paving**, installation of **bollards**, supply and erection of any type of **playground** equipment and custom made **external furniture** and playground equipment in a variety of different environments, from **residential complexes** to municipal **recreation areas** and **domestic** applications.

HARD LANDSCAPING

WHAT WE DO

IRRIGATION

TG Precise Engineering will undertake full design, procurement, installation and commissioning of all irrigation systems, manual or automated, for domestic, commercial, sports and agricultural facilities. We have **experience in agricultural, commercial and domestic irrigation systems**. We specify and install the pump and reservoir station required.

Irrigation systems and types we have installed:

- Drip and sprinkler systems
- Centre pivot and lateral move systems
- Manual and automated systems
- Rain water harvesting, tailings and dust suppression
- Sports field, golf course and horse arena's
- Domestic, commercial and dragline systems
- Irrigation travellers and self-creeping water cannon
- Sludge and effluent irrigation
- Pole mounted overhead irrigation
- Misting irrigation for propagation

HYDROSEEDING / REHABILITATION

WHAT WE DO

HYDROSEEDING / REHABILITATION

We offer **erosion control** methods on construction sites or as an alternative to the traditional process of seed broadcasting. It is very effective on steep slopes and sloping lawns. The advantage of **hydroseeding** is that large areas can be completed in very short timeframes with quick germination results.

Should you require a different vegetation than grass as an end-result, we have a variety of low water requirement plants/groundcovers/creepers that can be used as alternative.

HARD LANDSCAPING

WHAT WE DO

CIVIL ENGINEERING

TG Precise Engineering does a range of earthworks. We do **bulk earthworks, earthmoving, road construction** and installation of bulk services such **water reticulations, sewer reticulations, water harvesting systems** and **storm water systems**. We do all mentioned services in combination, or individually as required.

As specialists in the sports industry, we do all disciplines regarding a sport field development. From breaking ground to a final product. With the experience of constructing seven IAAF certified athletic fields, we strive for the highest standard possible.

As a cost saving method, TG Precise Engineering introduced **harvesting and screening** of the existing topsoil layer instead of topsoil importation to create a growing medium. This will ensure **better drainage** and provide a **better growing medium** that will save every client on maintenance expenses in the long run and ensure sustainability of the project.

WHAT WE DO

GOODS AND SERVICES

- Topsoil, Compost & lawn dressing
- Playground equipment
- Sports equipment and line markings
- External / outdoor furniture
- Landscape design and installation
- Hard landscaping
- Civil engineering
- Bulk earthworks
- Road construction
- Topsoil screening
- Paving and kerb installation
- Fertilizer applications
- Spring treatments
- Irrigation design and installation
- Laser levelling and precision shaping
- Bush Clearing and cutting

QUALITY ASSURANCE

All products and materials required to complete an installation or project are purchased from **reputable suppliers** adhering to all **SABS and ISO** codes required by industry regulators and other governing bodies or professional entities that suppliers must adhere to. For additional piece of mind, we have public liability-, works- and contractors all **risk insurances in place.**

COMMUNITY SOCIAL RESPONSIBILITY INVOLVEMENT

Skills transfer is a main objective for TG Precise Engineering when employing local E.P.W.P employees, thus supplying skeleton supervisory staff. Individuals are selected from the fields in which they excel or show potential, and are then mentored to improve.

WHY CHOOSE US

KNOWLEDGE

We bring over a decade of experience to your project. We have the **creativity** to offer “Out of the box” ideas and designs. We are **familiar** with the correct materials and plants to use for your project. We have the **experience to do the specialized installations** our competitors aren't capable of producing!!

QUALITY

We have an untarnished reputation and will never sacrifice quality over quantity.

SERVICE

We keep our promises and we deliver what we commit to. As a small company, we value YOU as a client and welcome any type of communication to give you the assurance that your project is headed for the right outcome.

A scenic view of a golf course with a green circular overlay containing text. The background shows a lush green golf course with a line of trees and distant hills under a soft, hazy sky. In the foreground, there are large green leaves and white calla lilies.
